

FOUNTAIN DRYER

Super Concentrated Liquid Dryer

10060

Fountain Dryer is a super concentrate made to be added to any premixed fountain solution. Once **Fountain Dryer** is added to the fountain solution water, ink will start to oxidize (dry) the top layer.

ADVANTAGES

- Use for hard to dry jobs
- Creates faster drying of heavily printed jobs
- Starts the drying process as water mixes with ink
- Mixes into any fountain solution
- Very low dosage needed.

RECOMMENDATIONS FOR USE

Add ½ to 1 ounce per mixed gallon of fountain solution.

As each printed job is different with different substrates and inks as well as coverage, some dosage experimentation may be advisable. If necessary dosage may be increased in one half ounce per mixed gallon of fountain solution increments.
