DYNAFOUNT 7

FOUNTAIN SOLUTION ALCOHOL REPLACEMENT

Product Overview

Dynafount 7 is designed for high speed alcohol free printing. It is wet enough to be used as a fountain solution/ alcohol replacement. The wetting characteristics allow for a low dynamic surface tension which will minimize water speeds.

Dynafount 7 contains components to eliminate chemical plate blinding and mold. Contains extra gums and pH stabilizers. This is an extremely high quality and versatile fount. Keeps reverses open. Reduces water speeds while lubricating the plate and blanket.

Product Benefits

- Creates viscosity (slip).
- Keeps piling to a minimum.
- pH stabilized.
- Contains a wide range of fungus inhibitors.
- Contains anti redeposition agents to help keep metering rollers and blankets clean.

Recommendations for Use

Use the *Dynafount 7* recommended for your water (available in Soft, Medium or Hard water grades).

Dosage: normally 3 to 5 ounces per gallon of water. If more wetting is needed add 1 ounce per gallon of water. Dosage should be reduced by 1 ounce per gallon if there is any ink build-up on the blanket or metering roller

Approximate conductivity (over water) per ounce:- 300
