

DYNAFOUNT ALKALINE

Alkaline based Fount

Product Overview

DynaFount Alkaline is for Newspaper and Insert printers running cold and heat set webs. Strongly buffered to maintain an alkaline pH in all water conditions.

Good wetting characteristics and good desensitization properties, Dynafount **Alkaline** will keep water settings to a minimum. During press stops it will ensure the plate stays desensitized and free from oxidation.

Product Benefits

- Buffered to a stabilized Alkaline pH.
- Keeps water settings to a minimum.
- Good wetting and desensitizing properties.
- Helps to print denser colors.
- Made for high-speed webs.
- Lower cost than acid and neutral based founts.

Recommendations for Use

Dosage: 3 ounces per gallon. If more is needed, increase by 1 ounce per gallon.

	DOSAGE	COND
Approximate conductivity over water per dose	3	1430
	4	1820
