Enviro Fount 4.0 #10285
Enviro Fount 6.5 #10502

Patent #1687081

Enviro Fount Powders

A series of four High Quality Powder Base Fountain Solutions

Product Overview

The formulation is environmental friendly dry blending of the appropriate acid/acid salt combination to provide the required pH value, biocides for storage and usability, sequestrants to counteract the effects of dissolved calcium, corrosion inhibitors to protect printing plates and press equipment, humectants to prevents premature drying of the printing plate and preserve the water film forming properties on the plate background, as well as anti-foaming agents. It only requires 10% of the space and weighs about 87% less then liquid founts, it reduces storage costs while its environmentally friendly composition eliminates the need for storage of empty containers.

Product Benefits

- Contains no listed hazardous ingredients
- Use with Metal, Polyester (laser & silver imaged) Plates
- Gallons come pre-packed with powder fount, just add water
- A series each, for Commercial Sheet Fed, Forms, Insert and News papers
- Available in easy to use pre-packed gallons with larger packs to make drums and totes
- Powder Founts are environmentally friendly
- Available in pH of 4.0 and 6.0

Recommendations for Use

Using a pre-packed gallon of Enviro Powder Fount: - **(Step1.)** Half fill with water and replace cap. Shake vigorously for about 10 seconds or until power is dissolved. **(Step 2.)** Fill container to one gallon of water and place cap back on to give a quick final shake to ensure total dissolving of powder. Steps 1 & 2 only take a few moments as the powder dissolves fast. **(Step3)** Dose out 3 to 5 ounces per gallon of water to use!

Approximate conductivity over water per dose:-

Enviro Fount Powder 4.0		Enviro Fount Powder 6.0	
OUNCES	COND	OUNCES	COND
3	570	3	1420
4	830	4	2080
5	1050	5	2600
