

ALL STAR FOUNT SERIES (original formulation)
AND ALL STAR FOUNT FOGRA APPROVED SERIES

Dear Site User,

Allied All Star and All Star Ultra Founts (original formula) continue to grow in use as a single step fount replacing the use of alcohol. The pH on these is lower than 4.85. This formulation is widely known throughout North America.

Allied also has **Fogra Approved versions** : Allied Star Fount FA and All Star Ultra FA which are formulated differently than the above original versions. These are with a pH at or higher than 4.85. Different wetting agents are used as well as other small changes to meet FOGRA requirements.

Please see certificates within this folder.

Regards,

Rick Sures
