

GUM ARABIC

14Be Pure Micro-Filtered Gum Arabic

Product Overview

Allied uses the highest of quality Gum Arabic.

Blended with purified water and micro filtered to ensure no contaminants. A food grade biocide is added to ensure long-term quality and freshness is maintained. Gum Arabic is an important material used in the print industry..

See below, all uses for Gum Arabic

Recommendations for Use

Plate processors:- use Allied 14Be Gum Arabic diluted 1 Part Gum to 3 Parts water

On plate by hand:- pour a liberal amount of Allied 14Be Gum Arabic onto a damp sponge or shop towel and wipe evenly over entire plate for storage.

Dilute if necessary.

On metal metering roller:- clean built-up ink off metering roller, pour Allied 14Be Gum Arabic onto a clean sponge or shop towel and wipe metering roller with a side-to-side motion until entire roller has been treated. Allow to dry before restarting press. This will ensure a water attractive metering roller.

A fountain additive:- add to pre-mixed fountain solution in increments of one ounce per gallon to eliminate scumming problems and keep reverses open.
