LITHO FOUNT

Sheet fed and Cold set Webs/ Conventional & Digital Metal plates

Product Overview

Designed for both sheet fed and cold set webs.

Litho Fount is environmentally safer and does not contain the solvents found in many other fountain solutions. It will not attack or over emulsify ink. This is an excellent day to day fountain solution.

Product Benefits

- Economically priced
- Contains mold inhibitors.
- Use with sheet-fed and Cold Set web equipment.
- Will not attack or over emulsify the ink.
- Creates excellent wetting and viscosity
- Good buffer capacity to prevent pH drift

Recommendations for Use

Starting dose of 3 ounces per gallon of water. If the plate does not clean up quickly, then the dosage should be increased in 1 ounce increments.

Approximate conductivity over water per dose:-	OUNCES	COND
	3	1005
	4	1350
