

PRESS CONTROL CTP + FOUNTAIN SOLUTION / ALCOHOL REPLACEMENT

Product Overview

PRESS CONTROL CTP is designed for use with CTP plates. Contains extra lubrication and wetting agents. To ensure performance without image degradation, on going chemical resistance tests are done on most brand of plates as they appear on market.

Contains a balanced blend of the appropriate acid/salt combination providing a stable pH in all waters with little or no drift. Biocides keep the fount system free of mold, sequestrants counteract the effects of dissolved calcium, corrosion inhibitors protect the printing plate and press equipment, anti-foaming agents reduce or remove mechanical and chemical foam.

Keeps plate background coated with a thicker water film to ensure stable water settings.

Product Benefits

- Use as a fountain solution and alcohol replacement.
- For use on all plates (ctp / violet & polyester)
- For use on sheet-fed and web presses.
- Keeps reverses, screens and halftones sharp
- Stays active longer by countering the affects of dissolved calcium

Recommendations for Use

Dosage:- of 5-6 ounces per gallon of water.

Approximate conductivity over water per dose:-

DOSAGE	COND
3	450
4	590
5	720
6	840
