TURBO CLEAN

Impression Cylinder & General Cleaner

Product Overview

Turbo Clean lifts and removes wet ink and paper coatings off of the impression cylinder, reducing picking and other issues during longer runs.

It even cuts right through older caked up ink and paper coating. Use it to clean up the side frames of inks and coatings and as a general cleaner.

Product Benefits

- Cleans the dirtiest impression cylinders
- Cleans wet or damp aqueous coating & ink from side frames
- Pleasant citrus odor with good ink solvency for fast ink removal and cleaning
- Removes water-soluble material, paper debris, spray powder, gum etc etc.
- Can be used on molleton dampening sleeves

Recommendations for Use

Dilute with water if desired.

Impression Cylinder:- Pour a liberal amount onto a rag, sponge or use a trigger sprayer. Rub entire cylinder with a side to side motion until clean.

Molleton Dampening Sleeves: Remove roller with sleeve and spray or pour Turbo Clean onto it adding more when needed. Use a soft scrub brush with a side-to-side motion across the length of the roller moving around the roller until roller is completely scrubbed. Once satisfied the molleton dampening sleeve roller is cleaned, rinse the roller off with clean water until all Turbo Clean and debris are removed and place roller back into system
