PRODUCT INFORMATION

CA XL Wash

Roller /Blanket Wash
10617

Product Overview

CA XL Wash is designed to comply with Southern California's Air Quality Management District 1171 ruling. **CA XL Wash** is a unique formulation created to provide effective conventional and dye sublimation ink removal from the roller train and printing blankets.

Product Benefits

- Use as a roller and blanket wash
- Very Low Odor
- Emulsifies and lifts ink better than conventional solvents
- Less than 100 grams per liter of VOC
- Can be used in Automatic & Manual applications

Recommendations for Use

Manual wash up

Apply **CA XL Wash** to rollers the same way you would normally wash up your press unit. Allow **CA XL Wash** to oscillate into and throughout the ink train for 30 seconds. Engage wash up attachment blade and allow ink waste to migrate into tray. Follow up and rinse rollers with **Allied CA Rinse** to remove any remaining contaminants or residues.

Automatic Washers

Fill wash tank with **CA XL Wash** and add 7oz per gallon of water **CA Rinse Concentrate** to the water rinse tank. Adjust settings as when using a traditional roller wash and water rinse.
