## **C.R.U.D.**

*Roller cleaning paste, restores performance of inking rollers*

### **Product Overview**

**C.R.U.D.** is a roller-cleaning paste designed for use on rubber inking rollers. It is ideal for use where thorough removal of all pigment residues is required, such as on critical color changes. Regular use of **C.R.U.D.** as part of a roller maintenance program will ensure that the rollers remain in optimum condition.

### **Product Benefits**

- Restores performance of inking rollers.
- Reduces downtime and waste at start-up.
- Contains no abrasives.
- Low odor.
- Can be left on rollers overnight.

### **Recommendations for Use**

**For use on rollers:** rinse off the ink rollers with standard solvent. Back off the cleanup blade or washup device. Using an ink knife, apply enough **C.R.U.D.** to thoroughly coat the entire roller train. Allow to work in for a few minutes to penetrate and loosen glaze and ingrained pigments. Wash off the rollers with standard press wash.
