E.C.R.C.

Roller cleaner and prep for transitioning to Hybrid/UV inks

 **Product Overview**

When transitioning to and from conventional and Hybrid/UV inks, **E.C.R.C.** saves time and paper waste. When used as directed, the ingredients attract and promote the proper transfer of Hybrid/UV inks.

 **Product Benefits**

- Contains ingredients that are complimentary to Hybrid/UV inks.
- Promotes the proper transfer of Hybrid/UV inks.
- Aids in the transition from conventional to Hybrid/UV inks, saving time and money.
- Acts as a roller conditioner.

 **Recommendations for Use**

Wash up using your standard solvent and normal washup procedure.

1. Apply **E.C.R.C.** across the top of the roller train and allow it to work in.
2. Wash off with your standard UV roller wash.
3. Ink up rollers and print.
