LOW-V 2.5

Low V.O.C / Vapor Pressure Blanket & Roller Wash

Product Overview

Provides low vapor pressure and V.O.Cs. with excellent cleaning abilities, combined with low odor and a medium evaporation rate.

Product Benefits

- Mix 50%-50% with water to enhance performance and further reduce V.O.Cs & vapor pressure.
- Forms a stable emulsion when mixed with 50%-50% water.
- Leaves no greasy residue behind on blankets or rollers.
- Removes inks, paper coating, paper glaze, gum glaze and friction glaze from blankets and rollers.
- Available in a range of 2.5 to 5.3. Flash point exceeds 100 F.
- Non-flammable for domestic (USA) ground shipping.
- Solvent Blending & Dispensing unit available to automatically add, mix water
And dispense into wash up bottles. (See Allied Litho-Pro SBS)

Recommendations for Use

Half fill an Allied wash up bottle with LOW-V 2.5 wash. Add water to until the wash up bottle is full. Shake well to blend the wash and water together. After shaking a white emulsion will appear. This should remain stable for a couple of days.

As a Blanket Wash: pour a liberal amount onto a clean shop towel or rag. Wipe with a side-to-side motion over entire, blanket until clean. If a thinner emulsion is needed mix Low-V 5.3 with 25% water.

As a Roller Wash: Pour a small amount on the top of the roller train. Allow the wash to work in, adding more as necessary. When ink appears to be emulsified engage wash up blade or clean up device.
