## UV A WASH

Ultra Violet Ink Wash for Automatic wash up systems

### *Product Overview*

Allied spent a considerable amount of time looking at the components of various U.V. washes and found that in many cases the formulations were identical, or extremely similar. We also discovered that many companies claimed their washes removed U.V. inks when they would remove only certain colors.

Others we looked at removed all the U.V. colors well, but caused damage to the rollers and blankets in a relatively short period of time.

Using this information Allied developed a dedicated wash for all U.V. inks, not as aggressive to the compounds used in rollers and blankets.

### *Product Benefits*

- Suitable for use in automatic systems.
- Removes all colors of U.V. ink.
- Removes U.V. inks quickly.
- Deep cleans rollers and blankets.
- Not as detrimental to rollers and blankets as many other UV washes.

### *Recommendations for Use*

**Automatic Blanket Wash Systems:-** use as you would any other automatic blanket wash.

**Roller Wash:-** pour a liberal amount over inking rollers adding more if necessary, engage wash-up attachment.

**Blanket Wash:-** pour a liberal amount onto a clean shop towel. Wipe entire blanket with a side-to-side motion
