PRODUCT INFORMATION

VENOM WASH UV-C

Low Voc Blanket & Roller Wash

Product Overview

While **Venom Wash UV-C** is a premium, specialized wash solution engineered to comply with many low voc requirements, this unique wash blend is suitable for **UV**, **Hybrid** and **Conventional** ink wash up on blankets & rollers.

Product Benefits

- Excellent for removal of energy curable and conventional inks
- Highly concentrated
- Extremely low odor; no oily residue
- Water rinse if necessary
- Deep cleans what other washes leave behind
- Will not cause plate blinding or sensitivity
- Minimizes paper waste during start ups
- Non flammable
- Flash point above 200° F
- VOC rating is less than 100 grams per liter
- Not harmful to rollers, blankets or seals
- No special handling or special requirements for disposal of plastic containers
- Minimal environmental impact and press operator safe
- Complies with South Coast Air Quality Management District Rule 1171

Recommendations for Use

As a roller wash: Squirt a minimal amount of wash over inking rollers adding more as needed. Engage wash up attachment. Follow up with a warm water rinse. As necessary, utilize Allied's CA Rinse to thoroughly remove any remaining residues or contaminants throughout the roller train.

As a blanket wash: Saturate a rag and wipe blanket side to side until ink is removed.
